INTRODUCTORY

We submit our Thirty-Eighth Edition of Ottawa City Directory with the assurance that it will compare favorably in every respect with previous editions.

Since last year the suburb of Mechanicsville has been annexed to the City thereby adding 70 to its acreage and over 900 to its population.

As the official report of the Census Commissioners is not yet obtainable we are unable to compare our estimate with theirs. While ours may be in excess, allowance must be made for the more thorough mode of our canvass. Our methods of making second, third and even more efforts to trace people whose names appeared in last year's issue and which were not returned on our original canvass; also the fact that our information is obtained both from the residence and place of employment, makes our estimate greater and necessarily more accurate.

Our present issue contains 33,018 individual names by actual count, exclusive of firms, corporations, etc. With our usual multiple of 2½ to represent married ladies and children under directory age, we have an estimated

POPULATION OF 90,799

for the City of Ottawa proper at the end of May, 1911.

From these figures it will be seen that Ottawa is steadily growing and the suburbs are increasing at an even greater rate.

We would call attention to the pamphlet published by the Publicity Department of the City Corporation which contains concrete facts in regard to the City, facts which show it to be one which has exceptional advantages which make it a model city, not only as a residence, but also as a business location, on account of the opportunities afforded of having raw materials at hand, with cheap power, light and transportation facilities.

We again thank our patrons for their continued support.
